

GIVE STUDENTS A FUN, INTERACTIVE WAY TO LEARN.

The response device preferred by elementary educators, this durable, infrared-based clicker system is ideal for smaller classes of up to 35 students in grades K-5. **CPS™ IR** works with virtually any instructional resource in multiple formats, including PowerPoint® presentation software.

KEY FEATURES

- Seamless integration with **EXAMVIEW®** publishers content and question banks that come with all major textbooks make assessments and lessons easy to create and deliver.
- Integration with the new eI Community™ puts even more peer-tested content and resources at your disposal.
- Question/Answer Types: Multiple Choice, Yes/No, True/False.

SPECIFICATIONS

- Runs on 2 AAA batteries with a typical life of 9 to 12 months.
- Operating distance: 50 feet. Requires line of sight clearance between clickers and receiver.
- Available for Windows® XP (SP2) and Vista® (SP1); Mac OS® X 10.4.11 or higher.

RECOMMENDED: Pair your **CPS™** clicker system with the **INTERWRITEMOBI™** to seamlessly transition between lesson content and spot quizzes and assessments.
